

# ensuring that your vision is realized

**jB+a** is an Atlanta based landscape architecture and planning firm that provides comprehensive external works solutions. Our practice is devoted to assisting public and private sector clients with the establishment and implementation of their vision. jB+a has a broad range of expertise in the fields of commercial, housing, park, urban, education and hospitality project development. The creative interaction fostered through our studio environment ensures that each project is developed with oversight from professionals who have a wide range of expertise. From site planning and analysis through project design and implementation, jB+a provides knowledgeable and responsive external works services that result in the realization of our client's vision.

## DESIGN MANAGEMENT PROCESS

**Quality External Works (Qew<sup>2</sup>)** is a design management process developed by jB+a. Qew<sup>2</sup> provides our international clients with the delivery of quality, responsive and timely external works documentation. Creating places within the global marketplace requires the proactive management of technical, cost and schedule performance. Developing a comprehensive understanding of local customs and project specific requirements ensures that projects are developed in a well coordinated and efficient manner. From project inception through completion, jB+a manages a team of expert technical consultants to address each aspect of external works development. Our integrated process begins by establishing completion criteria and follows through with the delivery of seamless documentation at each stage of project development. Qew<sup>2</sup> provides design and construction phase services from the initial concept through completion of construction that efficiently manage the challenges of international external works development.
